GBK Bench Checkweighing Scales

The GBK is designed to stand up to the demands of rigorous industrial applications. With its compact stainless steel platform, the GBK fits easily on a cart or table and is ideal for parts counting, batching or routine weighing. For flexible positioning, the pillar-mounted display can be used without the pillar. Oversized rubber feet offer stability, while the cast aluminum frame provides even weight distribution and ensures consistent readings regardless of where the object is placed during weighing. The GBK's intuitive software helps save time and reduces errors when logging data. Powered by mains power cord or the built-in, rechargeable battery, GBK operates anywhere. The GBK-M version is suitable for trade use.

The best solution for demanding industrial and manufacturing tasks

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Capacity tracker built into display for easily monitoring possible overloads
- · Checkweighing LEDs clearly show under, over and acceptable limits
- Programmable backlight can be set to "always on,"
 "always off" or "light only when weighing"
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Level indicator and adjustable feet ensure proper balance setup for optimum weighing results
- Large, grade 304 stainless steel pan allows easy cleaning
- RS-232 interface is available to provide speedy connection to computers and printers
- · Rugged construction stands up to industrial use
- Sealed keypad protects against dirt and spills
- Overload protection helps prevent damage to internal components
- Checkweighing with audible alarm
- · Memory accumulation totals results
- Parts counting with freely selectable sample sizes
- Parts counting optimisation automatically refines piece weight as parts are added
- · Preset tare function speeds the process of repetitive weighing
- Selectable digital filtering helps minimise effects of vibration and disturbances
- Zero-tracking feature ensures display returns to zero reading
- · Rechargeable battery included for operation almost anywhere
- · Programmable auto power-off to save energy

Applications

- Weighing
- · Parts counting
- Percentage weighing
- Checkweighing
- Dynamic / animal weighing
- Accumulation of weight

About ADAM:

For more than 40 years, professionals worldwide have relied on Adam Equipment for an extensive selection of dependable and affordable weighing equipment. Adam provides the right balance of speed, performance and value.

Key Accessories

ATP thermal printer

Easy-to-use features combined with quick set-up equals a truly versatile thermal printer. A single push-button feed key and three easy-to-read LED indicators make operation simple.

Adam DU data collection program

Adam DU software connects a balance to the laboratory network, helping to achieve seamless data collection, transfer and analysis. DU features an easy-to-use interface with a main command window, allowing users to quickly collect information from up to eight Adam balances simultaneously using RS-232 or USB connections.

Casters / Wheels

Optional caster wheels provide easy mobility for bench and floor scales. A brake lock prevents movement during use.
